About this: CoE Enrollment – Year-to-Year Comparison report.

This compilation is produced annually by the Dean's Office for use by internal and external stakeholders. It is designed to quickly show year-to-year enrollment differences and has the most commonly requested demographic and student-level details.

These data are built upon official enrollment sources, however, totals and tables include ABE/PABE students (a joint program with the College of Agriculture), differentiate Professional Masters students and fine-tune School/Discipline groupings. These value-added modifications better reflect the operations of the college but will deviate from the university's official sources such as the Data Digest.

New in 2021: This year's iteration includes a new grouping: Systems Collaboratory which captures those graduate certificate students. The new beginner section is expanded by differentiating FYE and PABE students.

If you have questions about this year's *CoE Enrollment – Year-to-Year Comparison* report, please email <u>drobledo@purdue.edu</u> and tanners@purdue.edu.

If you received this report via email or have an old copy, the most current version may be found on the College's <u>Facts and Figures</u> page.

COE Student Enrollment--Year to Year Comparison
